

CAT[®] Chiropractic Adjusting Tool

The CAT Chiropractic Adjusting Tool (CT001)

The most affordable thrust adjustment device available. It may look and feel like other adjustment devices, but it is designed for greater reliability and durability. The CAT's precision components provide smooth, easy operation and are compatible with the established protocols you are currently using. This device can be adjusted from 20 to 45 *AFR. With our CAT accessories you can customize your CAT to your comfort and the needs of your clients. The warranty on the CAT is 6 months.
